

IS OUR FUTURE IN SPACE?

YEAR 5 - SUMMER TERM 2 - 2025

Science: Space

We will learn about the planets in our solar system and how they move around the sun as well as what causes day and night.

We will also learn about space exploration and the significance of the Apollo II mission.

Pandora Discovered

Learning Journey

*Non-chronological report—
We will be creating a non-chronological report which includes information and details about our own planets.*

PE: Cricket

We will learn and practise a range of striking and fielding skills and apply them to cricket.

Is our future in space?

Year 5 Summer Term 2

Year 5

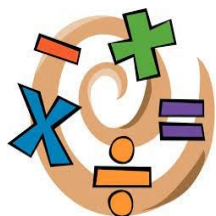

Park View
Primary
School

English

Texts drivers: Pandora Discovered

We will start by going on a voyage to the planet of Pandora before creating worlds of our own. We will then use these to write an interesting and informative non-chronological report.

Maths:

Angles
Fractions
Word problems

Music:

Our unit this half term will be about making music inspired by the Solar System.

Science — Space

We will learn about the planets in our solar system and how they move around the sun as well as what causes day and night.

We will also learn about space exploration and the significance of the Apollo II mission.

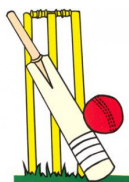

RE

We will learn about the importance and practice of prayer in Islam.

PSHE — Living in the wider world:

We will be learning more about community.

PE: This half term we will be developing our striking and catching skills through cricket.

BSL: This term's BSL unit is 'Food' and will focus on fruits, vegetables and menus.

We encourage the children to read 3 times a week at home, as well as practising their spellings and times tables.

Wider learning at home

- Make your own rocket and launch it into space! <https://littlebinsforlittlehands.com/rocket-water-bottle/>
- Have a stargazing evening at home. <https://www.skyatnightmagazine.com/advice/skills/stargazing-for-kids>
- Create your own space quiz to share with your classmates.
- Use cardboard and string to make a model Solar System <https://www.skyatnightmagazine.com/advice/diy/make-a-solar-system-mobile-for-kids>
- Make your own space-themed board game. Then bring it into class and play it with your friends!

All of the Year 5 team appreciate the hard work you put in with your child. It really makes a difference!
